

ClientPay payment software offers intuitive solutions designed for the next generation law firm. From practice management integration to payment acceptance, our solutions make the largest law firms in the country more efficient and more profitable. With ClientPay, law firms can:

## INTEGRATE

Through integration, law firms can sync their time and billing management with ClientPay's payment acceptance platform to automatically add payment records to bills. ClientPay integrates with Thomson Reuters 3E, Enterprise, ProLaw, eBillingHub, Envision, Firm Central, Aderant Expert, Rippe & Kingston, Coyote Analytics, and more.

## MANAGE

ClientPay was built specially for law firms to make the accounts receivable process easier. Use ClientPay to create payment schedules, automate recurring payment reminders, quickly reconcile deposits, create custom reports, and get detailed transaction information.

## GET PAID

With ClientPay's click-to-pay links, payment schedules, client payment portals, and recurring payments, law firms can offer their clients multiple ways to pay their bill on time when it's convenient for them.
